

Excellent Finish on ITS LAMINATED SURFACES

TECHNICAL SPECIFICATION SHEET

TRUPAN Melamine MDF

Offers the perfect blend of excellent quality and exceptional machining characteristics, making it ideal for furniture and interior design applications.

TRUPAN Melamine MDF

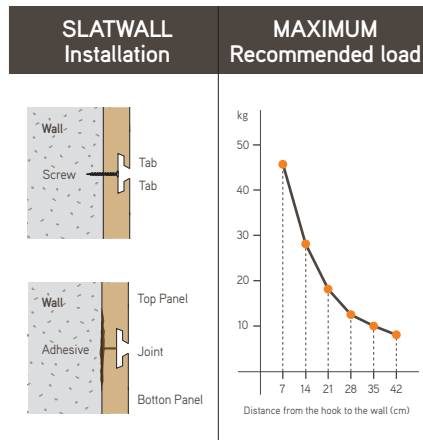

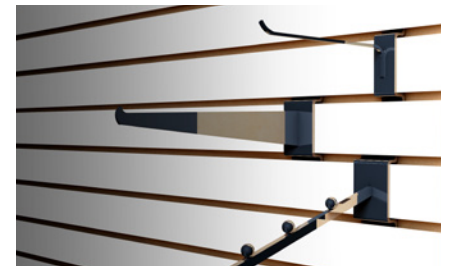

Is manufactured using pine fiber grown in ARAUCO's sustainably managed plantation forest. It has an excellent finish on its laminated surfaces, outstanding physical mechanical properties and exceptional machining characteristics, making it ideal for furniture and interior design applications. TRUPAN Melamine MDF is available with one or both faces laminated and also as a Slatwall solution, perfect for organizing and ordering your spaces.

Applications

- Home and office furniture
- Kitchen cabinets
- Interior design
- **Slatwall:** Combines maximum space use with decorative characteristics, enhancing all types of merchandise

Product Features

- High quality thermo fused melamine laminate
- Available with melamine faces on one or two sides
- Exceptional machinability
- Consistent density profile
- Slatwall: Easy to install. Can be reinstalled and reused. Available in 18mm
- Made from 100% fresh pine fiber from sustainably-managed forests
