

ANTIBACTERIAL ACTIVITY

Escherichia coli ATCC 25922 / *Staphylococcus aureus* ATCC 25923

Sample: Vesto Melamine board with Copptech® technology

Bacteria Tested:

Escherichia coli ATCC 25922

Staphylococcus aureus ATCC 25923

Test Method: ISO 22196:2011

Results:

Escherichia coli = 99,9% inactivation at 24 hours

Staphylococcus aureus = 99,9% inactivation at 24 hours

Vesto Melamine board with Copptech® Technology was able to eliminate *Escherichia coli* and *Staphylococcus aureus* with a **99,9% effectivity at 24 hours.**
